Subject: End-of-Life for Seapath 300, 320, 330 and 380

Author: Finn Otto Sanne, Product Line Manager, Inertial Solutions

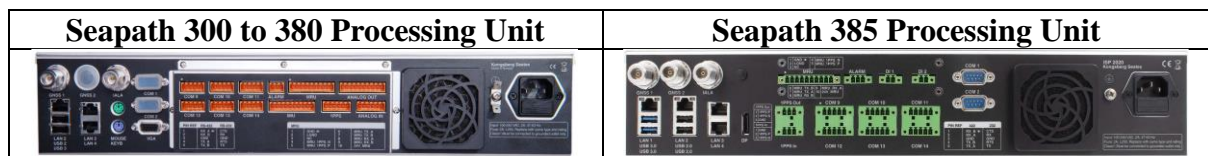

Seapath 300 series product line continuation

Kongsberg Discovery announces End-of-Life for the Seapath 300, 320, 330 and 380 products.

In the table below is shown replacement product and important dates for the phase out. The dates are given in year-month-day.

Discontinued products	Replacement product	Last order date	End of support and repair
Seapath 300	Seapath 385	2016-05-06	2026-05-06
Seapath 320	Seapath 385	2018-12-06	2028-12-06
Seapath 330	Seapath 385	2016-08-24	2026-08-24
Seapath 380	Seapath 385	2024-02-21	2034-02-21

The Processing Unit used in Seapath 385 is a revised version of the previous version used in Seapath 300, 320, 330 and 380. The form, fit and function is the same for the two version.

The important difference is that Seapath 385 only supports 5th generation MRU units.
