Subject: DMA re.: Application to update our letter of acceptance 199933581/3 with new functionality and name.

DMA ref.: 2016001023
Your ref.: GG/K-Log

Dear Geir Gjertsen,

Thank you for your e-mail. However, the Danish Maritime Authority does not any longer give "Acceptance" or "Approval" for shipborne nautical equipment, neither dealing with type approvals.

The >>use<< of an electronic ship logbook can be granted to a ship or a shipping company (ISM), if the applicant states that the system is fulfilling accessible standards and deliver sufficient documentation.

Yours Sincerely

Carsten Jensen
