**Subject: Product discontinuation notice – MP8200 of K-Chief 500**

Dear valued customer,

The intent of this letter is to inform you of the Kongsberg Maritime decision to discontinue support of the remote workstation computer MP8200. The model was introduced 2011. The decision is based on the availability of computers and spare parts in the market:

- MP8200 K-Chief 500

Kongsberg Maritime AS still offers full software- and field service support for K-Chief 500.

Being aware of the difficult situation an obsolete product may cause, Kongsberg Maritime has developed replacement work station computer based on new technology. We offer replacement computer for installation on relatively short notice at reasonable prices.

Options:

- Upgrade of MP8200 to latest type-approved marine computer.
- Upgrade of top system ( SW ) to K-Chief 600.
- Total retrofit of the whole system to K-Chief 600.

Please contact Customer Support for more information on either mail: [km.support@kongsberg.com](mailto:km.support@kongsberg.com) or phone: +47 33032407.

Yours faithfully

Espen Kværnstuen
